School IT checklist

A term-by-term checklist for principals, business managers and IT coordinators.

Before day one of the year

- [ ] Student and staff accounts rolled over, new starters created, leavers disabled
- [ ] Device inventory matched to enrolments, with 3 to 5% spares ready
- [ ] Every device updated and enrolled in management (Jamf, Intune or Google Admin)
- [ ] Classroom displays, printers and casting tested in every room
- [ ] Content filtering tested on staff, student and guest networks
- [ ] Timetable, LMS and student information system sync checked

Child safety and privacy online

- [ ] Filtering and safe search enforced on and off campus for school devices
- [ ] Acceptable use agreements signed by students, families and staff
- [ ] Only approved apps collect student data; privacy assessments on file
- [ ] Staff know how to report an online safety concern

Every term

- [ ] Operating system and app updates applied within two weeks
- [ ] Backups checked, and one test restore of a real file completed
- [ ] Admin accounts reviewed: only the people who need them
- [ ] Wi-Fi coverage checked in busy spaces (halls, library, staffroom)
- [ ] Repairs and lost devices logged, insurance claims followed up

General guidance only, not formal advice. (E8) = related to the ACSC Essential Eight. (c) MSM Technologies.

School IT checklist (continued)

Tick each item as you go. Anything unticked is a conversation worth having.

Cyber basics for schools

- [ ] MFA on every staff account, especially email and admin
- [ ] Staff phishing refresher at least once a year
- [ ] A one-page incident plan: who to call, what to switch off, who to tell
- [ ] Microsoft 365 or Google Workspace data backed up by a separate service

End of year and holidays

- [ ] Devices collected, wiped or reassigned; damaged ones sent for repair
- [ ] Licences counted and renewals planned before they lapse
- [ ] Big jobs (Wi-Fi upgrades, server moves) scheduled for the break
- [ ] Roadmap and budget for next year agreed with leadership

Notes and next steps

Who owns each unticked item, and by when?
